SUMMARY

Senior Software Engineer with 6+ years of experience building scalable fintech and mobile platforms. Led the end-to-end development of a currency exchange system that processes over \$2M CAD monthly, and architected a mobile app facilitating \$1M+ in secure financial transactions. Delivered high-performance systems using React, Django, and Golang, and successfully managed cross-functional teams to launch production-ready fintech products on tight timelines.

PROFESSIONAL EXPERIENCE

Cydene Energy Services

July 2024 – Present

Senior Mobile Engineer

- Launched fintech mobile app processing \$1M+ in transactions using React Native and .Net, achieving 99.9% uptime and saving \$50,000 annually in external vendor costs
- Led cross-functional team of 5 engineers across 8 product initiatives to deliver applications in energy, e-commerce, and mobility sectors, meeting 100% of project deadlines
- Optimized API performance and state management resulting in 30% improvement in app speed, reducing server costs by \$15,000 monthly
- Implemented comprehensive testing framework reducing production bugs by 40% and saving 20 hours of manual testing per week

Cowris Technologies Ltd

Feb 2023 – August 2024

Full-stack Developer

- Developed and deployed currency exchange platform handling \$2M CAD monthly transactions using React, Node.js, and MySQL, serving 1,000+ active users
- Built internal CRM, ERP, and P2P payment systems, increasing operational efficiency by 25% and reducing manual workload by 15 hours/week
- Engineered a React Native mobile app, expanding platform reach and boosting user engagement by 18%

African Founders

Dec 2021 – Jul 2023

Full-stack Developer

- Built a multi-purpose mobile app with React Native and Firebase, increasing user engagement by 12% in Q1
- Implemented real-time data synchronization across devices, improving app performance by 35% and user retention by 20%
- Designed and deployed a CRM system with Django and PostgreSQL, streamlining client interactions and increasing operational efficiency by 18%

Grandida LLC (Contract)

Sept 2023 – Dec 2024

Full-stack Developer

- Architected full-stack artisan marketplace platform including web app, mobile app, and admin panel using React, React Native, and Node.js
- Collaborated with product team on a fintech solution, contributing to system architecture and full-cycle development
- Established security protocols and conducted comprehensive testing, ensuring GDPR compliance and zero security breaches

EDUCATION

University of Ibadan, Ibadan, Nigeria

May 2024

B.Sc. in Electrical/Electronics Engineering

- First Class Honors (88%) | Dean's Honors List (2018-2024) | Google I/O Hackathon Winner (Ibadan)

SKILLS

Technical: React, React Native, Next.js, Vue.js, Django, TypeScript, Node.js, NestJS, Golang, Laravel, Java

Database & Cloud: AWS, Firebase, Supabase, MongoDB, MySQL

DevOps & Tools: Git, CI/CD Pipelines, Docker, Kubernetes, Jest, Cypress

Methodologies: Agile Development, Technical Documentation, API Design

LEADERSHIP & VOLUNTEERING

Instructor – TechQuest STEM Academy (Oyo State Program) 2023

- Taught introductory programming to 300+ Computer Science teachers across Oyo State, enhancing digital literacy in public education.

Frontend Team Lead, Google Developer Groups on Campus(GDGC), UI 2023

- Led frontend development in React.js and HTML5 while mentoring junior developers and hosting workshops that boosted campus tech engagement.

Technical Mentor (Mobile Track) – Skillpaddy 2024 - Present

- Mentored aspiring developers in React Native and Flutter, supporting mobile app projects and helping trainees transition into tech roles.
